#### UNDERTONE IN SHARES

IT WAS FIRM ENOUGH TO KEEP THE STOCK BEARS GUESSING.

Money Market Is Considerably Easier, and the Outlook Is Better-Summer Weather Affects Local Trading.

Money on call at New York yesterday was steady at 41/206 per cent. The last loan was Utah ..... 41/2 per cent. Prime mercantile paper was 566 per cent.

Sterling exchange was easier with actual business in bankers' bills at \$4.86\2\alpha 4.86\4 for demand, and at \$4.82\\@4.82\% for sixty days; posted rates, \$4.831/2 and \$4.871/2; commercial bills, \$4,8114.

Silver certificates, 5814@59c; bar silver, 58c; Mexican dollars, 47c. Bar silver in London sold at 26 I1-16d per ounce.

The New York stock market showed a firm undertone all day, and ended with a vigorous upward movement in progress in a number of prominent stocks, which arrested a reactionary tendency and made the closing firm. Net gains exceed a point in only a few cases. The principal activity was in the prominent specialties. Brooklyn Transit continued to attract a large share of attention. There were renewed efforts to depress the stock, but the support was too strong. Sugar and Tobacco, the latter selling ex. dividend, rose at one time three points each, but did not save all their gain. Great Northern preferred and Pullman continued their recent show of strength, the former rising 814, and 514 net. Pullman's extreme rise was 51/2 and its net gain 2. Metropolitan, Consolidated Gas and Thirdavenue were strong, but the latter lost all its gain. Southern Pacific was the leader of the late rally, after falling to 36, and was marked up vigorously to 37%. St. Paul attained a net advance of a point. The Baltimore & Ohio stocks were strong. London's active dealings here were very small, but the firmness of stocks there, and the lower rate for money in London, had a sentimental influence here. So had the good showing made by the Bank of Germany. The rise in the private discount rate in Berlin suggested, however, that the bank's reperation was made at the expense of the open market. The decline in discounts in ondon was reflected in an easier tone for sterling exchange rates. But higher money rates are expected in London, and that expectation is a factor in the speculative outlook here. Money rates here continued rather easier, call loans ruling at 6 per cent. or below. There was less demand for call loans. The amount of money disbursed by the subtreasury on interest account to-day, according to preliminary estimates, did not exceed \$200,000. This included not only the anticipated interest of Nov. 1, and for the fiscal year, but also a considerable sum of overdue interest. This factor was, therefore, not a large one in the easier tone of the local money market. The subtreasury, however, had a debit balance of over a million dollars at the clearing house on account of payment of government obligations. No drain is apparent, thus far, from the banks into the subtreasury this week. Deposits at the subtreasury for telegraphic transfers to other points show that the interior demand

for money is not yet satisfied. The bond market continued moderately active and some of the Southwestern issues moved upwards. Total sales, par value were \$1,775,000. United States twos advanced 4. but the threes declined 1/8 in the bid price. Following are the day's share sales, with

LOCAL GRAIN AND PRODUCE.

Warm Weather Checks Trade Some-

what, but Prices Continue Firm.

up was noticeable, due chiefly to the summer-

like weather now prevailing. In prices there

were no marked changes. Dry goods rule stead-

fest. In groceries there is much activity, and

prices rule very steady and firm. The hide and

leather markets continue to show a hardening

tendency, but made no advances yesterday. The

seed market is fairly active, with clover easier.

On Commission row trade was a little off yes-

terday, owing as much to the unseasonable

weather as to any other cause. It checked, for

tables for laying by for winter. The poultry,

The local grain market presented no new fea-

tures. The car shortage is seriously interfering

with the business of the local mills, especially

the cerealine mills. Track bids yesterday, as

### A GENERAL LIQUIDATION

IT SENDS WHEAT DOWN THE SLIDE FOR MARKED LOSSES.

Heavy Receipts and Increased Visible Affect All the Grains-Provisions Follow the Lead, Closing Lower.

CHICAGO, Oct. 16 .- Liquidation, encouraged by a heavy addition to the visible supply, favorable crop reports and an abundance of bearish statistics, including enormous world's shipments, weakened wheat to-day. December closed with a loss of 1/2@ %c. Corn declined %c and oats closed a 10c and ribs 71/2c.

Wheat opened weak, with the sentiment decidedly bearish. Everything seemed to be against the bulls. The drought in the Southwest was reported completely broken, world's shipments exceeded European requirements by over a million bushels and the indications were that the visible supply, when completed, would show a heavy increase, while the amount on ocean passage had increased nearly a million bushels. Under those conditions the bulls became thoroughly disheartened and left the bears in full control of the market, although the latter were not inclined to push their advantage to any great extent. The market ruled dull the greater part of the session, while fractions were steadily scaled off the prices until the last hour, when shorts were compelled to cover, and on buying of that kind there was a quick rally of 1/2c from the bottom. The improvement was only temporary, however, as the support was soon withdrawn, and at the close the market was headed downward again. closing within 1/4@%c of the bottom of the day's range. High ocean rates and an advance in rates east of Buffalo helped the decline. December opened %c lower at 71% @71%c, sold sparingly at 71%c, declined to 71% @71%c, rose to 71%c and closed with sellers at 71½c. Chicago received 243 cars, three of which graded contract. Minneapolis and the corresponding day a year ago. Total primary receipts were 1,786,000 bushels. against 2,190,000 last year. Atlantic por clearances of wheat and flour equaled 377. 000 bushels. World's shipments last week were 8,620,000 bushels, against 7,418,000 the same week last year. Amount on passage increased 816,000 bushels, compared with 320, 000 decrease last year, and the total afloat now is 26,800,000 bushels, against 20,560,000 then. The visible supply increase was 2, 979,000 bushels and the total in sight is 47, 314 000 bushels

Large receipts and a falling off in the foreign demand at the seaboard weakened corn at the opening. A smaller increase in the visible than expected and a belief that the wet weather prevailing throughout the West would retard the movement encouraged heavy buying after about an hour and a half of weakness and the early decline was partly recovered. Cash demand fair. Receipts were 900 cars. The visible increase only \$15,000 bushels, compared with an increase of 2,361,000 bushels the same date last year. December opened 1/3c lower at 30%@31c, firmed up to 31c, declined to 301/2c and closed with buyers at 30%@30%c. Oats were weak early in sympathy with wheat and corn, but turned strong later on buying induced by large clearances and a decrease in local stocks. Receipts were heavy, 415 cars. Visible increase 439,000 bush ets. Leceniter opened 1/20 lower at 22% of

declined to 221/2c and advanced to 22%@22%c at the close. Provisions ruled heavy throughout, start-ing at a moderate decline and increasing the loss as the session advanced. Too many hogs and lower prices at the yards were the depressing influences. Packers sold

heavily. January pork closed 10@12½c low-er at \$9.40, January lard 7½@10c lower at \$5.35@5.37½ and January ribs 7½c lower at Estimated receipts Tuesday-Wheat, 155

Brown County's Progress.

To the Editor of the Indianapolis Journal: The splendid Sunday evening sermon of

Dr. Smith, of the Tabernacle Presbyterian Church, and his allusion to the prevailing erroneous idea.concerning the intelligence of the people of Brown county was listened to by one who has spent considerable time in that county at various periods of his life and who has made it a study.
